

■ MMO-Ti Tubular Anode

MMO-Ti tubular anodes are manufactured using titanium which meets ASTM B338 Grade 1 or 2 Standards.

Environment	Anode Size [mm]	Output Current [A]	Lifetime [Years]
Calcined Petroleum Coke & Freshwater	Ø 19 x 1,220	7	20
	Ø 25 x 500	4	20
	Ø 25 x 1000	8	20
	Ø 32 x 1220	12	20
Seawater	Ø 19 x 1,220	45	20
	Ø 25 x 500	25	20
	Ø 25 x 1000	50	20
	Ø 32 x 1220	75	20

* It is possible to achieve longer life by increasing coating density or reducing anode current density.

[Application]

U/G piping, U/G pipeline, U/G storage tank external, Water storage tank internal, Sheet pile, Steel pile
